### **Introduction**

Nursing Department of Tarbiat Modares University, with a history of four decades, engages in training and educating of clinical, educational, and researcher nurses in masters and doctoral degrees. So far, 395 students have graduated in master's (395) and specialized doctorate (105). Almost 90% of the graduates of this group work as faculty members in nursing schools over the country.

Initially, nursing program had two general branches of nursing education and nursing management. Each branch, had four majors including Medical-Surgical, Pediatrics, Community health, and Psychiatry. For the reason mention, the nursing department trained students in these majors. Currently, the nursing program has changed and the nursing department educates students in four specialized fields in Master level including Nursing Management, Community Health Nursing, Medical-surgical Nursing, Pediatric Nursing, and Geriatric Nursing. Nursing department as a pioneer, educate students in nursing research and nursing education in PhD level. Nursing department has four international graduated and 11 international nursing students in master level.

The Nursing Department is proud of its faculty members who have achieved the highest academic degrees in nursing over the country. The faculty members of nursing department have a special place in the country's nursing education and research policies. This group is one of the leaders and developers of postgraduate nursing education in the country. This department is the second center for launching the doctoral program in nursing. The first graduates of PhD in Nursing graduated from this department.
